June

Dear Mom - Dad

I don't know how many of these pictures will turn out because I had a problem when they got wet.

I wish you would send me the pictures of Nancy. If you are taking any other pictures at home I would like some too.

Well I have to sign off for now.

Love
Bob

I guess I can write some more now. The reason I stopped so short above, is because I heard a chopper coming in and I wanted to mail this, I missed the chopper so I have plenty of time to write now.

I mailed one letter today. It was 2 days old because today is the first time in ~~the~~ 5 days I have seen ~~a~~ a chopper. I was right in my last letter about staying out 2 more days without food or water. We got re-supply today. The letter I am talking about is written on an envelope. I gave it to the door gunner on a chopper today so I hope it gets home. I got this paper from one of the guys in my squad.

There should be a couple of pictures of me on this roll of film. The last 2 I took

Today.

Tomorrow we are leaving here and humping
the jungle again. This time we will be out
for 3 days - supposedly. I hope I can mail
this yet today otherwise I won't be able to until
we get re-supply again - that is at least 3 days.

I got a letter from you today. It had
an article about Dan Arizmendi in it. That
was good about him. I knew him in High School.
He was in his 2nd tour of Nam. I don't know what
made him come back the second time.

You are going to have to let Nancy read
these letters because I haven't written her in
over a week. It's so hard to write because I
never know when I ~~can~~ mail it and I don't
have paper or envelopes. The next couple I
write I should send to her. Pretty soon I will
get back on a fire base of some sort and then
I can start writing again regular.

Well so much for now. I will write
again as soon as possible.

Love Bob
